

TAG Sub Committees

Wetlands Classification

This committee will evaluate and develop a wetlands classification system that shall be included in the staff's drafting of the Basis of Review document and Applicant's Handbook. These will include: net environmental benefit, the EPC review process for classification of wetlands, research of existing classification systems by other governmental agencies and the discussion if a wetlands classification should be a justification for impact.

Establishing a Classification of Wetlands

Net environmental benefit
Evaluate existing Classification Systems

Regulatory implications of implementing a Classification

Rule Language
Would Classification Determine Justification for Impact

Proposed Committee Members:

Marty Armstrong
Tom Crisman
Jason Mikel
Mark Sramek

Other Interested Parties:

Chuck Courtney
Scott Emery
Eric Fehrman
Steve Gran
